FIM 340 Regina

It combines timeless lines with modern and innovative contents

High performance, unique design, quality finishes: 340 Regina is the yacht that reflects the best characteristics of Made in Italy.

A 10-metre (vessel with an approved length of 9.98 m) designed to combine performance, classy finishes and on-board comfort. The FIM 340 Regina is the first model presented by the Italian shipyard FIM Fabbrica Italiana Motoscafi and is a versatile unit suitable for both sea trips in total comfort and short cruises, combining an extra-comfort deck plan with a voluminous lower deck able to accommodate up to 4 people with a bright bathroom equipped with a separate shower cubicle.

The version with outboard engines represents the sportiest choice, which favors practicality and performance, in this version you get a huge locker under the stern sundeck, where you can stow all the water toys and every whim you want to bring on board.

FIM 340 Regina with sterndrive engine stands out for its class and elegance, the large aft sundeck overhanging the sea makes the external lines even more sinuous and harmonious, while the aft platform is a real private beach from which to immerse yourself in the 'blue of your favorite sea.
