Invictus TT 280

THE PERFECT SHAPE OF A TENDER

For owners with no love for compromises, Invictus TT280 makes the perfect boat, both for pure boating as like a maxi-yacht tender. Its vocation of an evolved tender is expressed through balanced combination of refined coatings and comfortable shapes, making this boat a multifunction support vessel. The research of elegance matches functional features, while the half reverse bow offers additional space below deck, to be equipped according to customer needs and desires.
